

Appendicular Skeleton

humerus

greater tubercle
head of humerus
radial fossa
olecranon fossa
trachlea

lesser tubercle
deltoid tuberosity
capitulum
medial epicondyle

intertubercular groove
lateral sc ridge
coracoid fossa
lateral epicondyle

scapula

clavicle
glenoid cavity
suprascapular notch
subscapular fossa
spine

acromion
lateral border
superior border
supraspinous fossa
infraglenoid tubercle

coracoid process
medial border
superior angle
infraspinous fossa

radius and ulna

radial notch
head of radius
neck of radius
radial tuberosity
trochlear notch

radius
styloid process of both
pistal radioulnar joint
head of ulna

ulna
proximal radioulnar joint
coronoid process
olecranon process

hand and feet

phalanges
metacarpals
carpals

metatarsals
tarsals
talus

calcaneus

pelvic girdle

ilium
pubic bone
ischium
iliac crest
lesser sciatic notch
pubic symphysis
auricular surface

pubic arch
pubic crest
acetabulum
obturator foramen
ischial spine
sacrum

ischial spine
pelvic brim
iliac fossa
ischial tuberosity
greater sciatic notch
coccyx

femur

patella
neck
fovea capitis
lateral epicondyle
intercondylar notch

head
greater trochanter
lesser trochanter
medial condyle
adductor tubercle

gluteal tuberosity
linea aspera
lateral condyle
patellar surface

tibia and fibula

intercondylar eminence
lateral condyle
head of fibula
proximal tibiofibular joint
fibula
medial condyle

distal tibiofibular joint
lateral malleolus
medial malleolus
articular surface of
medial malleolus

anterior crest
tibial tuberosity
articular surface of medial condyle
articular surface of lateral condyle
