

Divisions of the Descending Aorta:

Thoracic Aorta

[UNPAIRED; multiple]

Bronchials

Pericardials

Esophageals

Mediastinals

[PAIRED]

Intercostals

Superior phrenics

Abdominal Aorta

[UNPAIRED; single]

Celiac trunk

Left gastric

Splenic

Left gastricepiploic

Pancreatic

Common hepatic

Hepatic

Right gastric

Cystic

Gastroduodenal

Right gastroepiploic

Superior pancreaticoduodenal

Superior mesenteric

Pancreaticoduodenal

Intestinal

Right & Middle colic

Ileocolic

Inferior mesenteric

Left colic

Sigmoid

Rectal

Right common iliac

Right internal iliac

Right external iliac

Femoral

Deep Femoral

Popliteal

Anterior tibial

Posterior tibial

Peroneal

Dorsalis pedis

Medial & Lateral Plantar

Dorsal (arcuate) arch

Plantar arch

[PAIRED]

Inferior phrenics

Suprarenals

Renals

Gonadals

Testicular

Ovarian

Lumbars

Left common iliac

Left internal iliac

Left external iliac
